

## Making Connections – Mad Libs

Mad Libs is a fun way for people to share what they like and don't like in a story and see how different people think.

### What to do:

The goal of this sheet is to get the child and the adult to each complete a Mad Lib sheet. The sheets can then be exchanged and compared between the adult and the child through mail, in person, or over the phone. Try this activity - the results can be fun and surprising! Use the back to make up your own.
